## *Spancrete Machinery to Attend World of Concrete*

*Spancrete Machinery Corporation*, a worldwide leader in precast, prestressed concrete hollowcore floor/roof slab and hollowcore wall panel production systems, announces their participation in the following tradeshow:

**World of Concrete 2009, Las Vegas, Nevada – February 3<sup>rd</sup> – 6<sup>th</sup>, 2009**

World of Concrete will be held in Las Vegas, Nevada at the Las Vegas Convention Center. Spancrete Machinery Corporation will be located in **Booth Stand N120**

*“This meeting and exhibition provide an excellent venue to interact with industry professionals from around the world,” says Joseph T. Dugan, Vice President of Spancrete Machinery Corporation. “The show gives us the chance to introduce the advantages of our Spancrete machinery systems and allows us the opportunity to exchange concepts, theories and philosophies with a diverse group of producers, architects, contractors and other building trades leaders.”*

Since 1954, Spancrete Machinery Corporation has manufactured high quality, reliable machines and accessories for the production of both 4’/ 1.2m and 8’/ 2.4m wide Spancrete® hollowcore products. Standard thickness range from 4”/10cm to 16”/40cm and with the SAME machine a producer has the ability to produce hollowcore floor and roof slabs as well as insulated/non-insulated hollowcore wall panels with a variety of textured finishes. Spancrete Machinery Corporation continues to conduct research in their new R&D Center in Waukesha and supplies all of the production facilities of its parent company, The Spancrete Group, Inc., a full service precast producer in Wisconsin, Illinois and Florida.
